OUT2LEARN[™]

Collection Description	Pieces easily “fuse” together to create ideal work zones. Use each piece as a building block to make comfortable, durable, easily moveable configurations for everything from a small section in a classroom to a full atrium	This collection was designed to be linked together to create a perfect space. Pieces come standard with a ganging device to achieve endless options- chairs, sofas, high backs, low backs, with or without arms and power in multiple locations. Compatible storage and table options are also included	Create a comfortable lounge space with these solid foam construction furniture pieces that can be configured in fun shapes for collaborative learning. This collection features our highest Foam ILD (Indentation Load Deflection), making it extremely durable	Add stylish, comfortable seating to common areas, libraries, or lounge spaces with NeoLounge2 [®] soft seating. Made with high-quality foam and durable, long-lasting materials	Just like the NeoLounge [®] collection lounging is made easy with the all foam construction. Pieces are lightweight and easy to move			Take the indoors out with our Classroom Select [®] Out2Learn [™] outdoor safe soft seating
