

Streamer Chandelier Hanging Party Decor

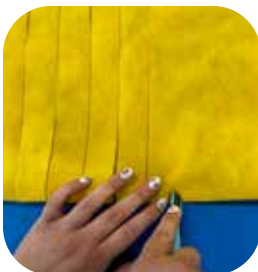

Supplies

- A cross stitch hoop or create your own with cardboard, wire, or anything you can image to create a hoop!
- 24" x 18' Smart-Fab Rolls in assorted colors
- Fishing Wire
- Scissors
- Glue

- 1** Use the Smart-Fab roll to cut out the desired length for streamers.

- 2** Fold the sheet of Smart-Fab in half and cut into 1-2" strips.

- 3** Repeat the process with desired colors until all strips are cut out.

- 4** Using the hoop you've either created or bought, start attaching the strips of Smart-Fab. Use glue to secure them in the desired place.

Once you have glued the Smart-Fab, wrap it around the hoop so that the streamers fall all in the same direction and cover the mechanics.

**You're ready
to decorate**
