

Snoezelen® Bumpas

FEATURES & BENEFITS

- Helps encourage awareness of cause and effect and gross motor skills
- Press the bumpa where indicated to activate vibration or sound
- Designed using easy to clean heavy-weight, durable vinyl with high-density foam

Rainbow Bumpas with Sound

- Designed to be a large-scale xylophone - where the set of 8 colorful panels represent a scale of music - making this excellent for auditory use along with cause and effect
- The vibrant and engaging interactive panels make music accessible and fun

Rainbow Bumpas with Vibration

- Similar in appearance to the Rainbow Bumpas with Sound, users can push the buttons to activate vibration instead (for proprioceptive input) of music/sound
- Choose from a set of 3 or 5

Wifi Color Control Bumpas

- Set of eight high contrast black and white panels for visual interest - good for low vision due to high contrast
- Each panel comes with a different color button allowing users to choose the color of the lights in the room with a push of the button
- Encourages interaction, understanding cause and effect, and movement. Provides a feeling of choice and control
- This also acts as a controller for color choice and cause and effect
