COLOR AND MATERIALS DISCLAIMER

School Specialty does its best to ensure that the colors and photos of materials are as truly represented as possible. However, due to the inconsistencies and varying capabilities of both digital monitors and printers to accurately represent this guide, we cannot guarantee that the colors and materials you see on your screen, or on a printed version, accurately portray the true colors or materials of the actual products. We strongly recommend that you work with a School Specialty representative when selecting colors and materials in order to help ensure you are confident in your product selections. We also strongly recommend you order samples to review and confirm your selections prior to ordering products.

While the information contained in this guide has been prepared with all due care as of the date of publication, May 28th, 2024, changes in circumstances after the time of publication may impact the accuracy of the information contained in this guide. Furthermore, while we are hopeful that this guide is helpful in your decision making, School Specialty is not responsible for any errors or omissions contained in this guide, or for the results obtained from the use of it.

To Request Samples please Contact Your School Specialty Representative.

CLASSROOM SELECT® COLOR MATCHING GUIDE

To design using a monochromatic look, use this color matching guide.

The printed or PDF version of this guide offers an approximate representation of color values. We strongly recommend requesting a physical sample of the color(s) and material(s) needed for your project for an exact representation. Also, please note that while we strive for the best color matches, color exactness is impossible to meet across different types of materials.
