

We'll help you set up the CTE LEARNING ENVIRONMENTS that set students up for success.

WHY CTE MATTERS

CTE programs have been shown to benefit K-12 students whether they are planning to continue their education or enter the workforce directly.

CTE PROGRAM BENEFITS INCLUDE

Enhancing academic achievement

CTE students often demonstrate higher academic performance and engagement

Boosting employability

Specialized programs and hands-on training provide practical skills in today's on-demand careers

Developing life skills

Hands-on learning helps students with creative problem solving, collaboration and critical thinking

Promoting lifelong learning

CTE programs emphasize continuous skill development and education

CTE CAREER CLUSTERS

Agriculture	Construction	Arts, Entertainment, & Design	Management & Entrepreneurship
Education	Financial Services	Energy & Natural Resources	Hospitality, Events, & Tourism

	Marketing & Sales	Supply Chain & Transportation	

Agriculture

Cosmetology

Medical

Welding

WHY AN EFFECTIVE CTE LEARNING ENVIRONMENT MATTERS

It is critical to align CTE programs with industry standards, providing modern equipment and contemporary, purpose-designed facilities. We can help you design a wide range of types of CTE spaces including:

Classrooms and Labs | Flexible Learning Areas | Collaborative Zones

WHY THE RIGHT LEARNING ENVIRONMENT DESIGN PARTNER MATTERS

Research shows that effective learning environments play a significant role in student success. Nowhere is this more important than in CTE programs, whether for dedicated spaces for specific activities or flexible areas that can adapt to multiple subjects.

No one has invested in more resources for learning environments than School Specialty. We offer:

Education expertise

Our extensive team of CTE experts, education strategists, and learning environment experts will collaborate together and with you to offer holistic solutions for your unique needs.

Projects by Design® service

Free expert design, project management and more provide end-to-end support for your CTE project.

For support creating or expanding your CTE environments, contact your School Specialty Representative.
